

TA-21 Demolition

Despite winter weather, demolition of Building 210 continued on schedule in December 2009.

Demolition of Building 210 began on December 1, 2009. At 22,000 square feet, it is the largest building demolished to date. Demolition took only five days.

Building 167 was one of the first buildings demolished at Technical Area 21.

Building 166 took only 23 minutes to demolish.
